

SPECIFICATION AMENDMENTS

Replace the paragraph beginning at page 29, line 17 with:

~~In~~ At the intersection ~~of point~~ on the extension of the line from the infinitesimal mirror 1b-1 previously described and the light 7b, the infinitesimal mirror ~~1b-1~~ 1b-2 is ~~set~~ placed, which reflects the light toward the intersection Q2 which is shifted by an infinitesimal distance dr in the vertical direction to the optical axis Z from the intersection Q1 at which the ~~set~~ position 8 of the lamp front lens 1b intersects the optical axis Z.
